SIT*KMU GLOBAL DESIGN WORKSHOP					
Date	Place	Partner Organization	Students' Major and Grade	Participants' Information	SIT Instructor
2025/02/13 ~2025/02/20	Japan	Kookmin University	Department of Design Engineering, Mechanical Engineering, Electrical Engineering, and Computer Science, Systems Engineering and Science  Undergraduate 2nd~4th grade, Master 1st~2nd grade	(SIT) Students 42, Student Staff 8, Professor 1  (Kookmin University) Students 50, Professor 2	YANG WONSEOK (Department of Design Engineering)

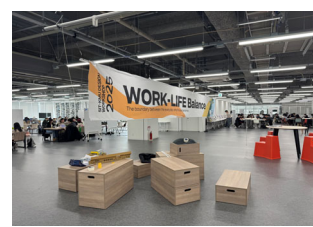

From February 13 to 20, 50 students from Kookmin University in Korea and 42 students and 8 TAs from our university participated in gPBL. This year's theme was "work-life balance," and we spent the first three days at the Atami Seminar House for group formation, field surveys, and idea meetings, then returned to the Toyosu campus on the fourth day to work on concept planning, visualization, and presentation preparation. We were a little worried about the travel involved, but the Shibaura students felt like they were on a trip, and it turned out to be a very enjoyable exchange activity.
