AGH

This PBL is held annually in Krakow, Poland as winter school. Total number of attendee was 23 (10 SIT and 13 AGH students) including DD Master course SIT four students who have already stayed in Poland since last October. The students, divided into five groups, worked for PBL topic (energy and environmental issues (focused on difference and Japan and Poland) that were distributed from us. After mid-term and final presentations, the first to the third places for the presentation were selected using evaluation sheet.
