VILNIUS TECH

An aerial photograph of Vilnius, Lithuania, taken during sunset. The sun is a bright, glowing orb in the upper left, casting a warm orange and yellow light across the sky and the city. The city below is a dense patchwork of red-tiled roofs, interspersed with green trees. In the center, a tall, white church spire stands out. The city extends to the horizon, where a few distant structures and a tall antenna are visible against the hazy sky.
