The 7th CNU-SIT workshop was held at Shibaura Institute of Technology Toyosu Campus on July 16-17, 2019. A total of 30 people attended this year: 7 from Chungnam National University and 23 from Shibaura Institute of Technology. Among the CNU students who participated this time, two were enrolled at the Korean internship held in February 2019, and were acquainted with the five SIT students who participated in the internship. On the 16th, as an excursion, we conducted a tour of Chofu's JAXA (Japan Aerospace Exploration Agency). From Chofu Station, it is located about 30 minutes by bus. The Chofu Aerospace Center has an aviation technology department and a research and development department, and an exhibition centering on aviation science and technology was displayed in the exhibition room.

On the 17th, we held a workshop on oral and poster presentations by students. There were 7 oral presentations of 3 from Chungnam National University and 3 from Shibaura Institute of Technology. Next,
