

gPBL on Web Application development

Implementation period	Implementing country	SIT's implementation partner organization	Target students	participant	SIT instructor
2019/7/28 ~2019/8/10	Viet Nam	Hanoi University of Science and Technology (HUST), Sun Inc.	<ul style="list-style-type: none"> Department of Computer Science and Engineering Undergraduate 2nd grade 	(SIT) Students 10, Professor 2	Nakajima Tsuyoshi

Image1 Interviews

This gPBL was conducted by SIT, HUST and Sun* Ltd. In this gPBL, students were given a set of lectures such as requirements engineering, progress management, then students made a web application required by a customer. In fact, students made an interview to extract requirements from customers, then they gave a presentation in front of the customers. After getting feedbacks, students revised the specifications, then they implemented their web applications. Finally they gave a presentation about the web application in front of the customers.
