	2019 Global PBL (outbound) Program Report
芝浦工業大學 SHIBAURA INSTITUTE OF TECHNOLOGY	

PBL Program on Software Development with FPT University and University of Da Nang

Implementation period	Implementing country	SIT's implementation partner organization	Target students	participant	SIT instructor
2020/02/15 ～2020/02/27	Vietnam	Dong A University Ming Chi University of Technology	・Department of Computer Science and Engineering、Department of Electronic Information Systems ・Undergraduate 2nd grade、Undergraduate 3rd grade、Undergraduate 4th	(SIT) Students 16, TA 4, Professor 2 （Dong A University） Students 13 （Ming Chi University of Technology) Students 4	fukuda hiroaki(Department of Information Science and Engineering)、miyoshi takumi(Department of Electronic Information Systems)

Image1 Opening Talk

This gPBL program consists of four different universities from Japan(SIT, FIT), Vietnam(Dona) and Taiwan(Ming chi).
Students from these university created 10 teams and discuss what they wanted to make an application that must use PC, smartphone and micro computer using network, then gave presentations of their ideas. After a few days development, they also gave a progress presentation. Finally, they gave final presentations what they made in this gPBL. Although the development periods were limited (e.g., 5 days), they created variety of application such as a geme, weather forcast. After the presentation, we made a ferewell party that consisted of professors students and staffs.
