February 15 ~February 23, 2021	Japan	Kookmin University	<ul style="list-style-type: none"> <li>Department of Engineering and Design</li> <li>Undergraduate 2nd grade</li> <li>Undergraduate 3rd grade</li> </ul>	(SIT) Students 23, TA 4, Professor 2 (Kookmin University) Students 21, TA 1, Professor 1	YANG Wonseok (Department of Engineering and Design) YOSHITAKE Ryoji (Department of Engineering and Design)

An online workshop using zoom was held from February 15th to 23rd, 2021. Participants were 1 faculty member, 1 TA, and 21 students from Kookmin University, and 2 faculty member, 4 TA, and 23 students from Shibaura. This is the 6th year of gPBL, but I was hesitant to hold it due to the influence of Corona, but I decided that it was important for the other party to continue, so I operated it as a program that makes use of the characteristics unique to online. We were able to produce good results that are not much different from the conventional face-to-face meetings by two special lectures by experts and daily evenings by teachers to check the situation and give guidance.
